## Motivate a secure mindset

Build awareness through positive interactions to get people involved:

- ✔ **Useful end-user tools** to yield high visibility security results
- ✔ **Gamification and nudges** for user experiences that people simply love
- ✔ **Rewarding feedback** with long-lasting impact on positive behavior

Our team helps with a clear plan, communications material and buy-in from the get go.

## Provide relevant training

Offer positive learning experiences, relevant to both work and life:

- ✔ **Personalized progress** to resonate with knowledge and interest
- ✔ **Bite-sized sessions** for maximum learning retention
- ✔ **High quality content** with first class support on any device

Our team helps with campaign set-up, content selection and any tweaks you need.

## Measure improved behaviors

Understand how people behave, and why, to strengthen your security culture.

- ✔ **Survey your strengths** and risky areas which require further attention
- ✔ **Automate follow-ups** without compromising individual employee privacy
- ✔ **Collaborate on improvement** with integrated historical data in a single system

Our team helps with collecting and analyzing data, and planning for your next steps.
